

BHARAT BHUSHAN

Full Stack Developer | React.js | Laravel | Next.js | Angular
kabirbhushan098@gmail.com +91-9816658298 Baddi, Himachal Pradesh
LinkedIn GitHub Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of professional experience designing and delivering scalable, high-performance web applications using React.js, Next.js, Laravel, and Angular. Skilled in building enterprise-grade CRM systems, e-commerce platforms, and role-based dashboards with secure REST API integration, JWT authentication, and role-based access control (RBAC). Proficient in frontend development with Tailwind CSS and Bootstrap, backend development with PHP and Laravel, and database management with MySQL. Comfortable working in agile teams, conducting code reviews, and shipping clean, maintainable code on schedule.

PROFESSIONAL EXPERIENCE

Starreify Tech Solutions

Full Stack Developer — React.js & Laravel

Baddi, Himachal Pradesh

December 2024 – Present

- Engineered scalable full-stack web applications using **React.js** and **Laravel**, delivering modular, reusable component architecture that reduced feature development time by approximately 30%.
- Designed and maintained secure **RESTful APIs** with **JWT-based authentication**, supporting reliable data communication across 3+ production applications.
- Built real-time **CRM dashboards** with dynamic data visualisation, improving operational workflow visibility and reducing manual reporting for business teams.
- Implemented **role-based access control (RBAC)** for multi-user platforms, ensuring data security and proper user privilege management.
- Optimised **MySQL** database queries and application logic, improving page load speed and overall system performance.
- Collaborated with UI/UX designers and product managers in an **Agile/Scrum** environment, consistently meeting sprint deadlines and delivery targets.
- Conducted **code reviews** and debugging sessions to maintain application stability, code quality, and best practices across the codebase.

Joenish Tech

Full Stack Developer

Panchkula, Haryana

September 2023 – January 2024

- Contributed to an enterprise-grade web platform for **Mercedes-Benz**, implementing frontend UI components and back-end features within a high-traffic production environment.
- Developed responsive, accessible user interfaces using **Angular** and **JavaScript (ES6+)**, ensuring consistent cross-browser and cross-device compatibility.
- Integrated third-party **REST APIs** and built backend business logic using **MVC architecture** with efficient relational database operations.
- Participated in **Agile sprint** cycles, daily stand-ups, and peer code reviews, maintaining high-quality code standards and on-time feature delivery.

PROJECTS

PharmaGrow CRM System

React.js, Laravel, MySQL

- Designed and developed a full-featured **CRM platform** for healthcare and business workflow management, supporting end-to-end operations across multiple user roles.
- Built 10+ dynamic data management modules and administrative dashboards with **RBAC**, enabling secure and structured multi-user access control.
- Developed **RESTful APIs** for seamless frontend-backend communication and optimised **MySQL** queries, reducing estimated data retrieval time by 40%.
- Engineered real-time data update features and a fully **responsive UI** using **Tailwind CSS**, ensuring a smooth experience across all device sizes.

Shop-It E-Commerce Web Application

React.js, Firebase, JavaScript

- Built a fully functional e-commerce platform featuring cart management, product variants, dynamic filtering, and real-time inventory updates via **Firebase Realtime Database**.

- Integrated **Firebase Authentication** for secure user login and implemented a mobile-first, responsive UI for a seamless cross-device shopping experience.

Portfolio Website

HTML, CSS, JavaScript, Bootstrap

- Developed a responsive personal portfolio website showcasing projects, technical skills, and professional experience with interactive UI components and optimised load performance.

Texonation Replica

Angular, Supabase

- Engineered a client-based application replica using **Angular** and **Supabase**, implementing secure authentication, dynamic UI components, and improved overall usability and responsiveness.

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Baddi University of Emerging Sciences & Technology, Baddi, Himachal Pradesh

Bachelor of Computer Applications (BCA)

2020 – 2023

ICFAI University Himachal Pradesh, Baddi, Himachal Pradesh

Full Stack Development Certification

2023

Skillera Institute, Panchkula, Haryana

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, HTML5, CSS3

Frontend: React.js, Next.js, Angular, Tailwind CSS, Bootstrap, Responsive Design, Component-Based Architecture, Cross-Browser Compatibility

Backend: Laravel, PHP, RESTful API Development, JWT Authentication, OAuth, MVC Architecture, Role-Based Access Control (RBAC)

Database: MySQL, Firebase Realtime Database, Supabase, Query Optimisation, CRUD Operations

Tools & Practices: Git, GitHub, VS Code, Agile, Scrum, Code Review, Debugging, Version Control, Software Development Life Cycle (SDLC)

LANGUAGES

Hindi (Native) English (Professional Working Proficiency)
